FOR IMMEDIATE RELEASE

Hanover, NH – Commercial Logic, Inc., a leading provider of practice management software for the accounting profession, announced today that Commercial Logic has entered into an exclusive distribution agreement with Advanced Professional Solutions Pty Ltd (APS), a leading global supplier of practice management software and services.

Established in 1991, with more than 18 years of software development and consulting experience, APS is a relationship-focused service organization that shapes its award-winning practice software around the individual business requirements of each of its accounting and professional service firm clients.

APS is now the primary practice software supplier to over 70% of the Top 100 accounting firms in Australia, over 60% of the Top 100 firms in New Zealand and 22% of the UK's Top 100 firms and was recently named Practice Management Software of the Year by *Accountancy Age* in the UK. Clients include top accounting firms on four continents.

Peter Coburn, President of Commercial Logic, said “APS offers a depth of service and product previously unavailable to North American accounting firms. Further, the values and customer focus of APS dovetail well with our own practice here at Commercial Logic. This becomes apparent when you review the extremely loyal client base of either company. We could not be more delighted to bring this outstanding company and its software to North America.”

Brian Armstrong, CEO of APS, said “we are excited about the opportunity to partner with CLI to bring APS to the North American market and together believe we will be able to fill a gap that exists in the Practice Management market. To that end we will shortly be announcing the first sale of APS to a leading Top 100 firm in the USA.”
