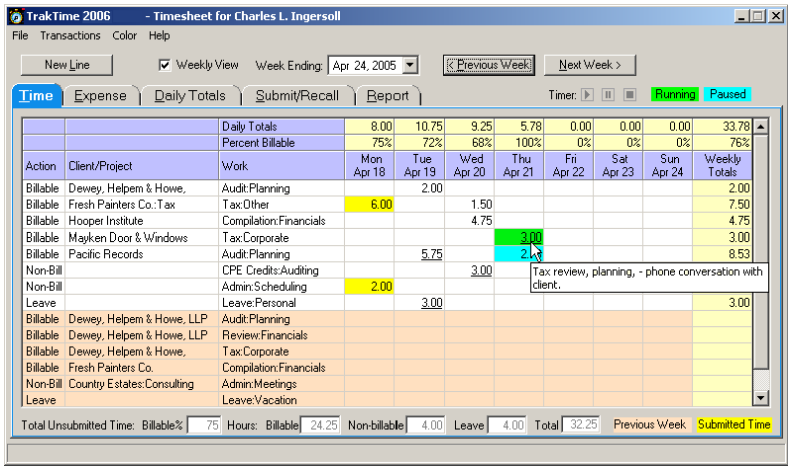
TrakTime Central

Lets your staff efficiently enter time and expenses using your existing QuickBooks clients, projects, and billing items. Time and expenses are compiled for management review, analysis and billing. When a bill is generated, the invoice automatically posts to QuickBooks.

Professional grade time billing fully integrated with QuickBooks Pro/Premier 2009/2010/2011

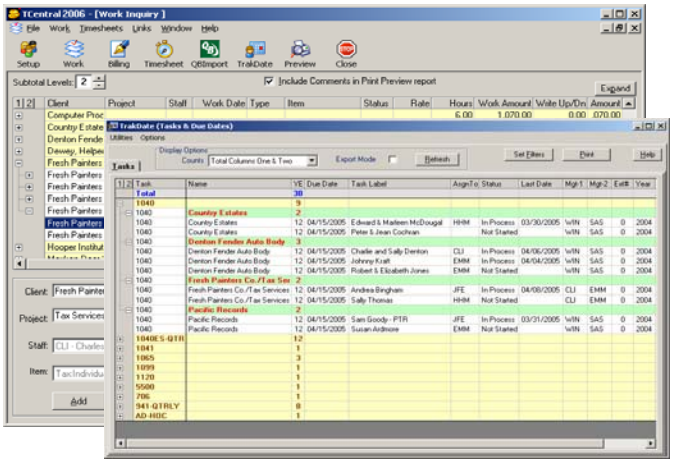


TrakTime Timesheets

- Weekly or transaction views
- Transaction timers
- Expense calculator
- Spell check
- Shorthand expansions
- Ad-hoc reporting
- Remote staff can submit via email
- The same timesheet software used in large professional firms

TCentral Billing & Analysis

- Consolidates timesheets for flexible on-screen review, analysis, and billing
- Tracks missing timesheets
- QuickBooks or Word invoice templates
- Progress or standard billing
- Billing at client or project level
- Analyze historical detail by client/project, staff, and billing code
- Tracks non-billable time & expenses and leave time
- Invoices automatically post to QuickBooks
- **New! TrakDate** due date tracking option



TrakTime Central is offered by subscription for $10/month per timekeeper (or less, depending on size), plus $500 one-time setup/ initialization fee. The subscription includes product licensing, updates and technical support.
