

Resource Planning

Advance Resource Planning (RP) is an application from APS that delivers next generation scheduling and resource allocation for professional service firms.

It is designed to improve profitability through resource optimization - helping firms to understand staff capacity and ensure that the right people are working on the right jobs at the right rate.

An integral module within Advance PM, **Resource Planning** enables a firm to select and allocate available team members - the firm's capacity - to specific client engagements or matters across the year. **Resource Planning** ensures the firm selects the right level of resource for the type of job being planned - ensuring from the outset that margin is protected, and the client's work is delivered on time and within budget.

Key Features:

- Practice Management Integration
- Budgeting (capacity and financial)
- Batch Planning
- Multiple Allocations
- Move Allocations
- Multiple Milestone Allocations
- Repeatable Milestone Allocations
- Enhanced Workflow Management
